

## NOMENCLATURE

A	active surface area of DSSC	$\text{cm}^2$
FF	fill Factor	
$I_G$	sunlight global intensity in certain air mass	$\text{mW}/\text{cm}^2$
$I_m$	maximum current of DSSC	$\text{mA}/\text{cm}^2$
$I_{SC}$	short current of DSSC	$\text{mA}/\text{cm}^2$
$V_m$	maximum voltage of DSSC	V
$V_{OC}$	open voltage of DSSC	V
$\eta$	efficiency of DSSC	%

## ACKNOWLEDGMENT

The authors would like to thank Kalimantan Institute of Technology (ITK), Ministry of Research, Technology and Higher Education (Indonesia) and Directorate General of Higher Education, Ministry of Education and Culture for supporting this research. Also, Mr. Ashadi Sasongko, Head of ITK Chemical Engineering Laboratory, Mr. Rachmad Ramadhan Yogaswara and Ms. Farisa Rizki as our advisor. Also, our beloved friends who always support us.
